Subject: Division Directive to Reclaim, Delta Minerals, Inc., TD Mining Mine, S/027/0080, Millard County, Utah

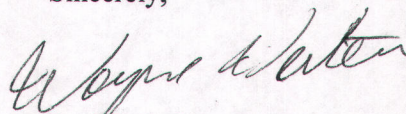

Dear Mr. Peterson:

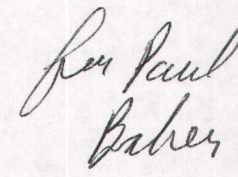

The Division of Oil, Gas and Mining has been notified by the Bureau of Land Management that the BLM's authorization to mine at the TD Mining mine has expired and that reclamation is required. Under rule R647-3-102, a Notice of Intention to Commence Small Mining Operations remains in effect for the life of the operation. The Division considers the life of the operation to have ended when an operator no longer has right of entry or other required approval to conduct operations. In addition, rule R647-3-113.5 states that the Division must require reclamation after ten years of inactivity unless you request a longer period of suspension of operations from the Board of Oil, Gas & Mining. The Division has no record of mining activity at the site after 2004.

You are directed to regrade and seed all mining-related disturbances By December 15, 2014. Seeding should be done on freshly-roughened soil. Enforcement action is likely if reclamation does not occur by December 15, 2014.

Please contact Peter Brinton at 801-538-5258, or me at 801-538-5261 if you have questions or concerns about this letter. Thank you for your cooperation.

Sincerely,

Paul B. Baker
Minerals Program Manager
